- Yes
- No
- Don't Know
- N/A

One of our school priorities is reading. Do you feel that the school continued to promote reading during the lockdown?

81 responses

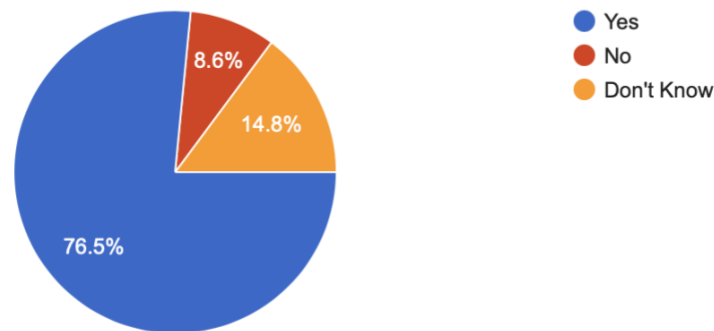

- Yes - lots
- Yes - a little
- Not really
- Not at all
- Don't Know

Do you feel that the school provided opportunities for the children to still have 'experiences' during lockdown? (i.e. author visits, special days etc)

## Did you/your family receive/collect food bags from school during the lockdown period?

78 responses

The school rang me and my child every week and made sure we were ok. The teachers made sure the children did special things even though they weren't in school like a virtual trip and a tea party. They read to the children every day too.

During this lockdown the homeschooling was more structured than last and also the communication from the school was brilliant. They were on hand if we were stuck and needed anything explaining. Very helpful! Although the children weren't in school I feel the bond between myself and the children's teachers is stronger now through the amount of communication. The teachers worked hard throughout and it has shown through the support they have given. We'll done. Xx

Once again the school has gone above and beyond in helping not just the children but the families as well. Google classroom was amazing and I feel it kept the children connected with their class as well as keeping them up to date on school work. It was all so well organised and made it so much easier for parents.

The children were made to feel safe and happy at school and have had lots of support. They have been doing their normal learning and have had fun things as well like authors doing zoom calls with the class. The school have worked really hard again and nothing has been too much bother. They will help you when you need it and they always put lots of pictures and things on twitter so you can see what they are up to. The children were never made to worry about the corona virus when they were in school and they were safe and happy. thank you Egremont you've done a good job again x

I thought the teachers done a fabulous job supporting Maisy and Henri during their home learning

I would like to take the opportunity to thank the teachers of F1 and F2 for making such a hard time feel so easy during a pandemic, you are all wonderful and your positivity really impacts on the children. My daughter loves her time at school, so thank you very much.

Amazing support network. Eternally grateful xx

When my child was at school they were well supported. When they were at home they liked doing work on the laptop and liked logging for the daily story with their teacher. The school has done a good job during covid. I don't think there was anything that could be done better

Everything was great although during the last week my child was getting fed up of the ipad as hes only 5.  
Thankyou

I appreciate sam getting a place, school is amazing well done to you all

The teachers have worked so hard supporting in many ways to my children. While being extremely busy they still care for my children and take into consideration their individual needs.

I feel the school communicated very well with both children from home and in school, having my children at a different school in the first lockdown this school is so much better with interaction and communication with the children and all teachers were available if needed.

School was very good to me and my son if I needed any help they were always there for us well done Egremont best School.

Mr Gaskell was fantastic at giving feedback to my child's work, getting in touch with the children (daily on google classroom) with little riddles to begin and then an outline of the days work.

Also the daily reads have been important in keeping up to date with school life and keeping to a routine. He thoroughly enjoyed that time of day where he knew he would be seeing his teacher and friends and enjoying the books read.

Fantastic school/teachers/staff

Egremont have gone over and beyond to help our community and little people over lockdown xxx

The school done a good job with everything in the lockdown. The teachers made sure we knew what we was doing and the work was good. The children liked the reading every day because they got see friends and hear the story the ones in school did. Thankyou for doing a good job

Both children still in school, they were still well supported and safe, both still having an adequate amount of learning and coming home telling me what they have learnt.

The support given has been fantastic, the staff have gone above and beyond to ensure the children not only continue to learn to but support them to ensure their mental health is not negatively affected.

I thought the way home learning was handled was brilliant, I felt I had plenty of support so did Matthew. Mr Hall was amazing always showed interest and seemed generally happy to see the kids on live reading. Mr Hall also checked in on us regularly if there were any problems I felt I could talk to him about it. Thank you for making this difficult time a little easier, at least I feel Matthew hasn't missed out on too much education even with me being a fairly bad teacher.

I felt like some days the workload was a lot more than others, some days it took far longer than the usual school day to complete. Sometimes the tasks set led to frustration at home, but the set up of the Google classroom worked well overall.

The teachers have been great during this pandemic couldn't fault them I had calls every week asking how I was and the children, I didn't need the food bags so I didn't receive any. Well done Egremont

I think the school have acted amazing considering everything they have had to deal with.. the teachers are an amazing bunch and couldn't ask for a better school for my children

The teachers did their best and there was always work to do however it often became very time consuming to teach subjects that the children were not familiar with.

School have been fantastic both when my children were in and out of school

School 🏫 were and still are very helpful through the bad times and the good times couldn't ask for a better School always there for me and my son.

Had no worries over my child being in school teachers did an excellent job of making sure he was safe and happy

give time to kids that need extra support

You worked hard to make sure the kids were safe in school and they liked having time with different teachers too. Mrs Kemp and Mr Hall did a great job. Thank you x

The daily reading session was a really important part of the day at home and made sure that the children didn't feel isolated. The staff made sure the children still had opportunities at home and the fact that authors were commenting on their work on twitter was really nice. Once again, the school has gone above and beyond. Well done to all.

This lockdown felt very focussed on work and it was very good the way it was all done. The lessons were interesting for the children and even though some of it I found hard and couldn't help my child with the teachers made sure they were there and answered questions right away. It was good that they had a virtual trip even in lockdown to.
